Despite the very stormy weather after Christmas the attendance, with the exception of the Village School, has been very good. Miss French was released from active service from Thanksgiving until the spring term, so substitutes have been furnished for the Quincy School for the winter term.

With the special appropriation for noon lunch equipment, three two-burner oil stoves were purchased and placed in the Depot, Montview and Stinson Lake Schools. The teachers began providing lunches with considerable trepidation and doubt; but the work is no longer an experiment, but is fast becoming recognized as a regular school activity, both necessary and beneficial. I trust the district will install one oil stove in each of the other two school buildings and thus place full approval upon the important work of providing all children who carry their lunches with something hot at the noon hour.

The medical inspection of the pupils reveals the usual number of cases of hypertrophied tonsils, adenoids, defective teeth—the three enemies of a child's physical and mental growth. Very few of these cases are attended to from year to year. Parents are urged to recognize the importance of attending to all serious cases, that the child may have a fair chance of reaching the highest development of which he is capable. It is amazing to what extent tonsils, adenoids and bad teeth affect the general health of a child and the character of his school work.

The schools would benefit greatly by having a victrola in every building. Might not the various sections, by some earnest effort, secure one for the school in which they are in closest touch? It is very difficult to provide musical training in rural schools, but much can be done in musical appreciation and training with a victrola. The Stinson Lake school has one, temporarily at least, generously loaned to them by one of the summer residents. Which school will first have a victrola of its own?

Rumney schools are good schools. This is shown by the active interest of the townspeople in general; by the generous appropriations; by the loyalty of the teachers who return to us year after year; and by the results as shown in tests given by your superintendent. Many of these tests are standard tests; those which are not, are tests which are given to all the schools in the union district. In all of these tests Rumney schools secure the largest share of the honors, much to the gratification of the teachers, the joy of the pupils and the appreciation of the parents.

Thanking you for your cooperation in all the school activities; congratulating you upon the splendid staff of efficient and loyal teachers that have charge of your schools; I cannot but feel that the future for Rumney's schools looks very bright indeed.

Respectfully submitted,

CLARENCE M. HARRIS,
Superintendent.
